NEW 2007 PRODUCT GUIDE
ANNOUNCED BY ICS ELECTRONICS

PLEASANTON, CA, April 10, 2007. Today ICS Electronics announced its new 2007 Product Guide. ICS Electronics' 2007 Product Guide provides a complete overview of all of ICS's interface and controller products. New in the 2007 Product Guide are ICS's new family of GPIB Controllers and a new, next generation GPIB Driver that is Vista and .NET ready compatible.   The 2007 Product Guide also introduces ICS's new Ethernet to Digital and Ethernet to Relay Interfaces. Full product data sheets are available as pdf files from ICS's web site at www.icselect.com.

ICS Electronics is a pioneer and leader in the design and development of IEEE 488 Bus support products and VXIbus products. The ICS has been supplying GPIB, Serial, VXI and Ethernet interfaces and controllers for assembling the systems for over 27 years.

ICS Electronics is headquartered at 7034 Commerce Circle, Pleasanton, CA 94588. **Phone (925) 416-1000. Contact Jerry Mercola, Marketing Manager for more information.**
